universal edge profile for all sizes

EYE-CATCHING DESIGN

Curvo Plus is a complete signage solution with, as its name reveals, stylish rounded edges in high quality aluminium. Inox-finished pins, which hold the insert in place, complete the elegant look of the Curvo Plus range. No need to purchase different pins per profile size - they fit the entire Curvo Plus range.

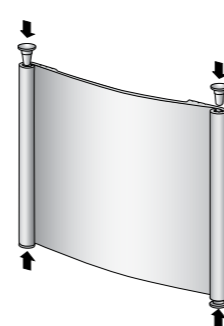

MULTIFUNCTIONAL

The Curvo Plus applications - wall mounted, suspended, projected and table stand - are offered in different sizes. Inserts can be in paper, acrylic or metal. It is also possible to apply text and graphics directly onto the full profile surface, using vinyl, engraving or silk screen printing.

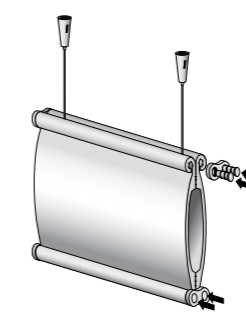

UP-TO-DATE SIGNS IN NO TIME

Text and graphics, displayed behind a clear acrylic cover, are replaced in seconds.
